June is Alzheimer’s & Brain Awareness Month.

Alzheimer’s disease is the 6th leading cause of death and affects millions of people daily. According to the Alzheimer’s Association, 150,000 Georgians live with Alzheimer’s and over 500,000 people are unpaid caregivers.

Share these resources with someone you know and consider registering for The Longest Day®. On June 20, select any activity you love or an activity loved by those affected to help end Alzheimer’s.

The Association works to provide care and support for all those affected by Alzheimer’s and all other dementia. 24/7 nationwide free hotline staffed by master’s-level clinicians and specialists, providing confidential support and information in over 200 languages.

AlzConnected® provides a place for those affected to connect with others, share questions, find answers and share opinions in the Alzheimer’s community.

Free online tool, Alzheimer’s Navigator®, helps those facing the disease to determine their needs and develop an action plan. Provide caregivers and families with comprehensive online resources through their Alzheimer’s and Dementia Caregiving Section.
